What is VOCEDplus?

VOCEDplus is a free research database for tertiary education as it relates to workforce needs, skills development, and social inclusion. It encompasses vocational education and training (VET), higher education, adult and community education, informal learning, and VET in Schools. It has extensive coverage of Australian material and includes a wide range of international information. It contains over 42,000 English language records, many with links to free full text documents.

VOCEDplus Highlights

The Australian National VET Equity Advisory Council's (NVEAC's) aspiration is for an equitable and inclusive vocational education and training system that enables all learners to achieve their potential through skills development and to access the opportunities society has to offer.

See VOCEDplus Highlights for more information
‘No Frills’ conference: register now!

The 28th National Vocational Education and Training Research Conference ‘No Frills’ is being co-hosted this year with TAFE SA in Adelaide on 10-12 July 2019. The conference will focus on the theme ‘The student journey: skilling for life’, and includes a program of hands-on, interactive pre-conference workshops incorporating activities on data and research analytics, and research practice. Registrants make sure you visit the VOCEDplus team at our information booth and help us celebrate our 30th birthday!
The VET Practitioner Resource draws on VOCEDplus, NCVER products and external links to present a range of information designed to support VET practitioners in their teaching and assessment practice and in undertaking research.

Guide to navigating the VET Practitioner Resource

The VET Practitioner Resource is a living resource that NCVER continues to develop and update on an ongoing basis.

Feedback and suggestions for content are most welcome.

The material published on this resource is intended for general information only and is not legal advice or other professional advice. NCVER is not responsible for the content of any third-party website to which links are provided from this resource. NCVER does not endorse or control these websites and cannot guarantee that material on those sites is in all respects accurate, complete and current.

1984

Tertiary Education Commission report for 1984-86

The third triennium report of the Commonwealth Tertiary Education Commission (CTEC) for the three-year period between 1984-86. CTEC was an advisory council set up by the federal government through its triennium reports, became very influential in the development of tertiary education in Australia.

1985

Report of the Committee of Inquiry into Labour Market Problems

This Committee was formed in 1983 in response to government concerns over the labour market problems. Encouraging more Industries and occupations into the national training system proposal for a new structured training system for young people combining on- and o- of the Australian Traineeship System (ATS).

Quality of education in Australia [Karmel report]

This review of school education aimed to develop strategies for raising standards attained in basic skills such as literacy, numeracy, and improving the relationship between secondary schooling and subsequent employment and education. In recognising the importance of basic and generic skills and their assessment, it informed both the Finn Review and the Mayne Committee in the development of employability skills.

Landmark documents > Historical overviews

The VOCEDplus landmark documents are key documents considered by history and authoritative commentary to have influenced the development of the Australian vocational education (VET) system, providing vision and/or leading to significant change. A chronological list of these documents tagged with the areas of influence is available on the main Landmark documents page.

This overview describes and defines the place of VET, i.e. the role that VET plays in relation to other parts of the tertiary sector and its purpose in terms of the desired outcomes, as perceived by governments in the education and employment policy landscape.

Timelines

VET Knowledge Bank timelines

The VET Knowledge Bank contains a suite of products that aims to provide a collected memory of VET reference information. It contains the following timelines:

Australian VET policy initiatives: 1998-2018

Australia’s vocational education and training system has transformed over the past 21 years in response to changing economic and societal needs. This timeline helps understand the scale of change and the individual policies, programs or initiatives that have shaped VET at both the national and state and territory level.

COAG Ministerial Councils and its committees and advisory bodies: 1992-2018

This timeline captures the different Ministerial Councils responsible for education and training from the ANTA Ministerial Council (MINCO) to the present COAG Industry and Skills Council (CISC) - and their committees and advisory bodies and shows their evolution during this period.

Governing VET in Australia: 1992-2018

This timeline can track minister’s, Federal ministers and the Commonwealth departments responsible for VET in Australia.

Leadership in VET: 1992-2018

This timeline can track the people who have influenced the development of Australia’s VET system.

Tips on using the online int.

1. Download this free third party tool online.
2. The timeline viewer allows you to view:
   - the timeline data (Event Entry view)
   - a graphical representation of the timeline
   - a chronological table of events (Chronology)
3. Use the View menu or click on the Timeline C.
4. Hover over an entry to display the information icon, which will display more information about that entry.
5. The timeline entries include key documents. To access these documents, click on the document icon against the relevant entry.
6. To view the timeline as a chronological table, click on the Chronology button.
